## 2 in 1 Gate

The 2-in-1 gate incorporates a self-closing step gate into a standard field gate. 2-in-1 gates are designed to incorporate a pedestrian gate into a field gate, thereby allowing pedestrians easy access to the right of way and vehicular access when required - particularly useful in spaces where there is not enough room for both a field gate and pedestrian gate. 4600mm width.

- Galvanised gate gives longevity in even the most rural of locations
- The pedestrian gate is secured using an Easy Latch
- The pedestrian gate will automatically close from fully open
- Pedestrian gate leaf: 950mm high x 700mm wide
- Installed height 1200mm
- 139mm diameter hang and slam post required to complete the system
- For additional cost - opposite handed version can be made to order

£POA

## Big Bar Gate

- 1143mm high
- Box section RHS bracing for improved strength
- Top and bottom rails 44.5mm dia tube
- Intermediate rails 35mm dia tube
- Spring loaded sliding bolt fastening
- 50x50mm SHS sleeved hanging stile
- A full range of sizes 610mm - 4880mm
- Bespoke sizes available at extra cost

### **Kissing Gate - Galvanised**

Kissing gates are a common site in the English countryside and are used for public access within a fence line.

The benefit of using a kissing gate over a stile is access is easier for the less mobile and ramblers with dogs.

A very strong galvanised system.

Made from 40mm galvanised steel this product could potentially last a lifetime.

Simple to install, the framework bolts the system together to prevent any post movement while the gate self closes against the frame.

[CLICK FOR WEBSITE](#)

### **Bridle Gate In Frame - 5 Rail Galvanised With Part Meshed Base**

1540mm wide x 1220mm high supplied in one unit, for added strength and ease of installation.

The standard gate has a fitted self closing mechanism, this can be ordered without if required.

An extended handle enables easy opening from horseback, and a lower handle for wheelchair users.

Galvanised finish, price includes posts.

## Gatemaster Hydraulic Gate Closer & Hinge Kit

This hydraulic APS closer safely and reliably closes gates weighing up to 120kg, and requires no power.

It is discreetly mounted and welded underneath the gate, concealed within a vandal resistant steel case. It also acts as a load bearing lower hinge, and may be used for left or right handed gates.

Adjustable closing speed using the special key provided. The latching speed can be set separately.

The top bracket is fully adjustable, allowing the gate to be correctly positioned after installation.

Gate may be opened both ways if required.

The APSSTOP kit utilises a built-in stop hinge to prevent the gate opening beyond 100°.

## 6 Bar Hardwood Gate - Heavy Bottom Rail

Hardwood 6 bar entrance gate with heavy bottom rail

6 rail gate - a great option for dog owners.

Suitable for electric gate installations.

Heavy bottom rail 70mm x 70mm.

Stain can be added to suit your preference or surroundings.

Diamond braced design provides added strength to the gate.

Morticed rails and cross bracing ex70mm x 20mm are all held together with zinc coated nuts and bolts.

Stiles are 95mm x 70mm both with rounded tops.

Height to top of hanging stile is 1.2m (47").

Standard sizes range from 0.9m (3") to 4.57m (15").

Compatible with our GATE AUTOMATION SYSTEMS

CAN BE HUNG LEFT OR RIGHT

### Universal Iroko Hardwood Gate - 5 Bar

The double cross-bracing gives this wooden 5 bar gate it's distinctive style, commonly seen around the countryside and farm.

The tapered top rail is designed to reduce the pressure on the hanging stile.

Available in both right and left hand hanging. They can be hung as a single leaf or alternatively a combination for wider entrances.

Iroko - The premier hardwood, with the appearance and qualities of teak. Planed and sanded mid brown finish. Much lighter in weight than that of Oak and Keruing, reducing the pressure being put on the fittings and head stock. No treatment required, although a coating of teak oil annually will help maintain its natural colour.

Sizes: 0.9 - 3.6m left or right hanging.

Compatible with our GATE AUTOMATION SYSTEMS

### Yeoman Softwood Gate Kit 3.6m - 5 Bar

Gate Kit Includes:

1 x 3.6m softwood Yeoman 5 bar entrance gate

1 x galvanised fittings

2 x 2.4m x 175mm x 175mm UC4 four way weathered posts

Left or right hanging.

Compatible with our GATE AUTOMATION SYSTEMS

## Yeoman Softwood Wooden Gate - 5 Bar

Manufactured by Wheelwrights in years gone by, the Yeoman still remains the premier 5 bar entrance gate to enhance any property.

This gate can be hung on its own, single leaf, left or righthanded, or as a pair in any combination.

For example - a 3.0 metre for car access with a 1.2m pedestrian access.

Sizes: 0.9 - 3.6m.

Left or right hanging.

Compatible with our GATE AUTOMATION SYSTEMS

£POA

## Standalone Dogway

The Dogway is made from recycled plastic and timber with Galvanised steel brackets.

Height is 1-2m and 500mm wide post to post.

The handle for the latch is easy to use from either side and the latch is light to lift.

The Standalone Dogway is designed to fit in the fenceline alongside a stile.
